

30mm poles & rings

30mm diameter poles

The 30mm diameter pole has a 1mm thick wall and is available in two finishes: stainless steel and brushed bronze. The recommended span between brackets on the stainless steel pole is 220cm, and 180cm for the brushed bronze.

Both are available in stock lengths or, for an additional charge, we will cut them to your specification.

Poles over 240cm are delivered in two pieces with a connector, unless you specify otherwise. Longer lengths are available. Please enquire.

pole length	stainless steel	brushed bronze
120cm	P-30-120-SS	
150cm	P-30-150-SS	P-30-150-BB
180cm	P-30-180-SS	P-30-180-BB
240cm	P-30-240-SS	P-30-240-BB
300cm (2 pc inc. connector)	P-30-300-SS	P-30-300-BB
360cm (2 pc inc. connector)	P-30-360-SS	P-30-360-BB
480cm (2 pc inc. connector)	P-30-480-SS	P-30-480-BB

Baypoles

Working in association with Walcot House, Idolum Design Resource offers a baypole bending service. The 30mm stainless steel pole can be bent to order and will be despatched to you together with your chosen Walcot House finials and accessories.

Call Idolum on 0208 255 4472 for a quote or more information.

Rings

Flat section standard and passing rings are available, in either stainless steel or brushed bronze. Allow at least one ring for every 10cm of pole length.

ring type	stainless steel	brushed bronze
a. flat section ring	R-FSR-30-SS	R-FSR-30-BB
b. passing ring	R-PAS-30-SS	R-PAS-30-BB

All rings have a nylon insert to ensure curtains glide smoothly and quietly along the pole.

The passing rings are used in conjunction with passing brackets (usually on a bay or widespan window). Their C shape enables them to glide over passing brackets, allowing one pair of curtains or even a single curtain to be pulled all the way across the window.
