

50mm tracked pole

50mm diameter tracked pole

All of our wooden poles are now available with a tracked option, with or without cording, and are supplied complete with track, gliders, and two hook eyes.

These poles are supplied with 10cm of untracked pole at each end so that if necessary, they can be trimmed to your requirements on site, or simply left to show finials at their best.

The total pole length, and inserted track length are shown in the table opposite.

The track is available in silver or bronze. Please specify when ordering. If the track colour is not specified - silver will be supplied.

All tracked poles are made to order, with a two week lead time. Please allow longer during busy periods.

See page 58 for bracketry details.

Cording

All of these tracked wooden poles are available with a cording option complete with overlap arms, pulleys and cord weight to match the track colour you have specified.

To order your pole with cording add '-CD' to the end of the track code and state whether you require a left or right cord drop or a two way cord pull. We will also need to know if you have a single curtain or a pair of curtains, and if you have any preference on the cord drop length. Call us if you would like to discuss your requirements, or for a 'corded pole' order form.

Please allow three weeks lead time for corded tracked poles and longer during busy periods.

Gliders

All poles are supplied with the number of gliders shown in the table. Extra gliders can be ordered if required using the code opposite.

pole length	track length	code	track colour	gliders included
